## City of Austin Website Policy

---

As a service to the residents of the City of Austin, the City has a “New Resident Information” page on the City website. That information includes, but is not necessarily limited to community services, DMV information, licensing information, utility information, cable tv information, etc.

The amount of space available on the City’s website is limited and the City does not want to overwhelm visitors to the City’s site with superfluous information. Pursuant to Minnesota Statute 10.60 Subd. 6, the City’s policy for listing a business, organization or other entity on the City of Austin’s website include the following criteria:

The business, organization or entity shall:

1. Have a physical presence within the City of Austin or the immediate area, and/or
2. Already provide a service to a significant portion of the Austin area, and/or
3. Be licensed or franchised by the City of Austin, and/or
4. Be a service organization with a significant number of Austin area residents as members, and/or
5. Be a governmental or quasi-governmental entity that serves the Austin or greater Austin area.

The City reserves the right to make exceptions to the five criteria noted above and also reserves the right to remove a listing from the City’s website for any reason.
