GENERAL PROVISIONS

It is required that the group using the facilities be responsible for maintenance cost resulting from use of the facilities where it would not be necessary maintenance for the Department's programs.

It is required that the persons using the facilities have adequate supervisory help to insure that doors and gates, which are unlocked are under constant supervision. More than one supervisor may be necessary to fulfill this requirement.

Persons not involved in a group's activities are not allowed to enter the facility.

Persons responsible for youth activities must provide constant supervision and not allow unsupervised participants in other parts of the facilities.

Some facilities may have special rules for their use. It is the user's responsibility to obtain and enforce these rules.

Failure to follow the above regulations may result in the loss of use of facilities by a given organization or sponsor.
