Item No. 1 – Local Option Sales Tax

Public Works Director Steven Lang provided an update for the local option sales tax progress. He stated that since the tax began in 2007 there has been approximately \$10,400,000 collected. The maximum length the tax can be collected is until 2027.

He stated the City has completed many projects around town and have a few projects identified for possible future construction including the Wildwood Park area, the Lions Park area and the Waste Water Treatment Plant.

Mr. Lang stated an alternative to the Wildwood project would be to buy out the seven homes currently in the flood plain instead of a levee. He stated Lions park could also be scaled back.

Mr. Dankert stated this is an important discussion to have because the sales tax could shut off earlier than originally planned.

Council Member-at-Large Austin stated the tax could be extended for a different type of project.

Council Member Helle stated the Chamber of Commerce was supportive of the LOST tax when it was originated but may not be as supportive of it now. She suggested keeping the communication lines open with the Chamber.

Mr. Lang provided the amount of funding required for different projects around the City.

Council Member Baskin stated the tax was implemented to fix flood issues and he would like to see all of the projects completed that are feasible.

Mr. Lang stated the topic will be discussed at the March 5, 2019 retreat.
