

DATE: December 30, 2024
PROJECT NO: 19106

REPORT ON FEASIBILITY OF PROPOSED LOCAL IMPROVEMENTS

Honorable Mayor & Members of the City Council
City of Austin, Minnesota

A resolution requesting a feasibility study for the reconstruction of 6th Street NE (30th Ave NE to 36th Ave NE) was referred to this office on December 2nd, 2024 for the Engineer's Preliminary Report.

We report that the improvements are feasible.

6th Street NE is made of asphalt pavement on the north half and is a gravel roadway on the south half. The street is 22' wide in the paved portion and 17' wide in the gravel portion. The road was originally constructed as part of the North Meadows housing development. The proposed project will consist of the following:

6th Street NE (30th Ave NE to 36th Ave NE)

- 1) Regrade the south half with aggregate base to widen the roadway to 22 ft.
- 2) Full depth reclamation of the north half to incorporate the asphalt into aggregate base.
- 3) Paving 4" of asphalt pavement at a width of 22 ft on the entire length.
- 4) Repair storm sewer drainage tiles.

The total estimated costs would be funded as follows:

Funding Source	Amount
Assessment Bonds	\$140,000
SWUD Fund 67	\$20,000
Total for 6th Street NE	\$160,000

Abutting property owners would be **assessed 100%** of the project costs.
